EX-KING ALFONSO AND SPAIN

A tragic king has passed, Alfonso of Spain, who had been living in exile for ten years. His father died before he was born two of his sons died after automobile accidents, he was but twelve years of age when his country and the United State went to war in 1898 after which Spain aurrendered all claims to Cuba, Porto Rico, The Phillipines and Guam. At that time he was not yet king, his mother acting as regent. The very day of his marriage saw the first of eight attempts sching as règent. The very day of miss marriage saw the first of eight attempts upon his life. He was extranged for years from the queen. There was a bloodless prevolution in 1923 when military chiefs assumed control. King Alfonso yielded and General Primo de Rivera became practical dictor of Spain. Rivera resigned in 1930 and on the development of republican sendiment and the outbreak of republican estimation at the control of the republic was formed in 1800 pain was the last of the great nations to make the last of the great nations to make the national defined taxes, the control of the control of

A baby's skin can't stand scratchy woollens!

But little Willie's woollies will stay downy soft ... un-shrunken ... if you care for them the LUX Flakes way. For Lar has none of the harm-ful alkali in ordinary soaps to make fibres rough and scratchy
... irritate tender skins. Delicate colours are safe, too . . . anything safe in water is safe in Lax. While you're at it-why not do the whole family's wool-lies the easy, thrifty LUX way! Stop trusting to luck-trust LUX! Get a large box, today!

Meat Upon the Table

Edgar A. Guest

I sing this glorious land of ours, Its motor cars and shous, Its little gardens, gay with flowers,

Here your ambitious boy may be Our President if he's able,

Here happy women feed their "brutes" Until they shout, "Enough!"

Few pale-cheeked children whimper At morning, noon, and night tee out, There's "meat upon the table".

THE UNITED STATES ANSWER

The United States has answered higgression's threat to the democracies of the world. The Republic has always been on the side of the free nations and of the Hun-ridden democracies. The U. S. people know that the Hun and the Pascist will not forgive them for helping Britain with the flow of a suniment when some man and the state of the state norgive them for helping Britain with the flow of equipment, planes, guns and munitions, but the United States has gone straight forward in spite of the enemy threats.

United States has seen how Hitter cowed his evil oats over Europe and cast the looming shadow of barbarism over the world. She knows that Hitler has not had a single accession to his ranks through mornal means. What he has gained has come through fear and terror and domination of the weak. He has not a friend in the world. She has seen Hitler distorting progress, compounding with he forces of savagery and barbarism, and pervetue progress, and progress in his attempt to raid a world of cate the United States has a Briting tending with progress and the same progress are same progress. Theitad States has seen how Hitler

nations look to Britain to reason them from the clutches of aggressor. It is the commdeship of unselfish Remorracy which has led the United States Congress to pass authority for that at to Britain which will assist so materially the British in their fight for a secure twentd, from which Nazism and Fassism will be driven.

Attacks he has sald to have ordered were hurled back with tremendous heroes. Attacks he has said to have order-ed were hurled back with tremendous losses inflicted by the Greeks, the latter even seizing new positions from the crack Italian units. Duce had sent new forces to Albania and they alike with some of his

Well might the Italian blusterer and braggart runh to Albania, for he had nowhere else to go: not to Ethlopia, Italian Somaliand, Erites or Libay, but only to the patch of land that remained the beautiful to the patch of land that remained the land to the patch of land that remained the beautiful to beautiful to meeting the land to be the patch of land that remained the beautiful to beautiful to beautiful the land to be land the land that the beautiful the land to be land to be land the land to be wants to make a show before filter and to bolster up Italian morale, as he foolishly ector. Broadside or head-on, the 1941 Ford is a shapping higholoking car. But you can't begind to appreciate its biguess till you net pisside and sit down. Actiful measurements show that Ford has the greatest inside length, greatest total seating width, most knee-room and most numerous prome of more on its seatest. assenger room of any car in its price class. With its wonderful size and roominess goes new riding comfort—a great new Ford ride that's

almost unbelievably soft, amouth and quiet! It's a ride that's made possible by Ford's newest engineering achievement—"slow-motion springs," plus improved alock absorbers, a new stabilizer and a more rigid frame.

Now take the wheel and feel that hig-car stability as you float along the highway. See how this car hugs the road, how beautifully it handles.

A THRIFTY ENGINE... Only Ford gives you the extra power, extra smoothness and proven economy of its V-d engine--owner report 21 to 25 miles a gallon. Yet, any way you look at it, Ford is a big, powerful ear. Bring your present ear and see what a big turn-in value a Ford dealer offers on the purchase of a new Ford.

FOLKS BACK HOME Hardship and danger our fighting men take in their stride. But there are periods of inaction, lonesome hours away from families

and friends-that is when the helping hand is needed. Through the Canadian War Services Fund, you provide wholesome activities to keep our men happy-sports, games, movies, concerts, books, comforts . . . pleasant places where the men may meet their families . . . all the things that mean so much to a man's well being.

Let the volunteer helper who calls on you carry back your pledge of loyal support for our fighting men.

You never have failed them—you will not now. The boys rely on the folks back home.

THE WAR TODAY

"Never in the field of human conflict was so mucl owed by so many to so few." — Churchill

The price of freedom comes high . . . in lives, in personal sacrifice, in hard cold dollars. Millions are needed now . . . to feed, clothe and equip the men who guard the citadel of freedom.

At this fateful hour it is the plain duty of every working Canadian to SAVE, that Canada may play her part worthily in this struggle for freedom and human decency.

Invest in War Savings Certificates regularly. Build up your savings New . . . keep at it. Save for Victory.

The boys of our fighting forces are our own flesh and blood. From mine, see, farm and forest and from city, town and village, they have gone forth as defenders of our sidery, our homes and ser way of life. They have broken home ties, left friends and loved ones, given up the comforts of home.

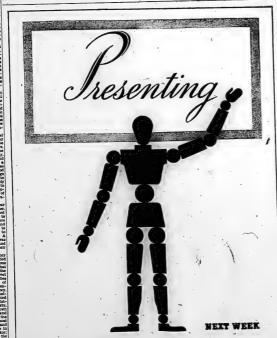

Six great organizations are united in asking for funds to see that those comforts are provided. Surely we, safe and secure at home, will provide them with moments of happiness.

Let the volunteer helper who calls on you carry back your pledge of loyal support for our fighting men. The boys rely on the folks back home. You never have failed them—you will not now... Give generously in this combined appeal.
